

2016 Catalog

Imagination International, Inc. began as a small company committed to making the world a better place by putting the best artistic tools into the hands of accomplished and aspiring artists. From a spare bedroom in 1998 with two employees, to our 40,000 square foot facility with more than 60 employees today, helping artists is still at the heart of all that we do. You may know us as the exclusive distributor of the renowned Copic markers for North America, but we are more than that.

We take great pride in our educational offerings, our customer service, and in the many products we sell (check out our brands). Though we are known throughout the world, we have always been a local company at heart. We support local arts organizations, schools, and community service organizations because we feel that every person should have the opportunity to reach their full creative potential — our love of the arts, the human spirit, and the power of creativity compels us to do so.

Our goal is to help our customers as well as our community thrive and flourish in tangible and meaningful ways, it's in our DNA. Staying true to our values has helped us create a company where we are proud to work. Over the years we have learned that creativity is precious. What makes us happiest is to see others discover the creativity within them. We could not come work every day if we did not know our work mattered. Our focus continues to inspire us to strive for the highest level of quality in everything we do.

Illustrate & Inspire

Sketch markers come in the widest range of colors, and feature the Medium Broad and Super Brush nib combination. The responsive and flexible Super Brush nib delivers a wide range of marks and makes blending easy. The Sketch marker has revolutionized fine art markers. The Super Brush nib feels like a saturated, long lasting, flexible brush that never frays. It gives artists the ability to spread ink smoothly in a manner similar to watercolor. The other end has a Medium Broad nib with a firm chisel tip, perfect for airbrushing and coloring large areas. Sketch markers are commonly used for comics, storyboard illustration, fashion design, interior design, manga, anime, landscape architecture, rubber stamping, mixed media arts, tattoo arts, calligraphy and more!

Copic Plastic Color Chips

Based on the Copic color family, these stackable trays of 288 color chips are a great reference tool for designers.

Use the Color Chips to communicate accurate surface color throughout the creative process. The set consists of 12 color families: R, RV, BV, V, B, BG, G, YG, Y, YR, E, and Grays.

Refined & Professional

The Classic marker is our original line of high quality illustrating tools. Used for decades by professionals around the world, this marker style enables bold strokes, quick coverage and the ability to work within detailed areas. Classic markers are most popular among Comic Artists, Architects, Product Designers, Graphic Designers, Industrial Designers, Calligraphers, Quilters, Scrapbookers, and for journaling and mixed media arts. Classic markers come with Standard Broad and Standard Fine nibs.

Economical & Dependable

The Ciao marker (pronounced "chow," as in the Italian greeting) is the most economical Copic marker, providing the same great quality and experience as Sketch, but at a more attractive price. The Medium Broad nib allows for thick strokes while the Super Brush nib works great for variable-width strokes.

Visit **Copic 101** for more tips.

COPIC® WIDE

Wide markers are refillable.
One Various Ink bottle will refill a Wide marker up to 7 times.

Reliable Color & Extendable

Various Ink refills are part of what make the Copic system truly amazing. All 358 marker colors have a matching bottle of ink. Each bottle will fill a dry marker up to 15 times, depending on the style of marker. Measuring guides are built into the bottle, assuring easy and precise refilling. Each bottle of ink has a built in dropper tip for simple application. If needed, an additional Booster needle can be attached for even more precision. The airtight inner seal will prevent the ink from drying out for many years. Various Inks are non-toxic and easy to clean up.

Visit Copic 101 for more tips.

Artwork
By Sherry Telle

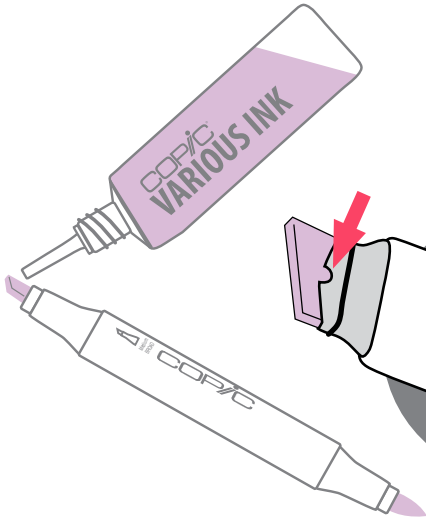

Refilling Copic Markers

Match the color number of your marker with the Various Ink color number.

DRIP METHOD

This method applies to all marker types

1. Uncap both ends of the marker, hold at an angle & drip ink onto the Broad nib, one drop at a time, checking fullness every few drops.
2. Dab any excess ink with tissue and clean any spills with rubbing alcohol.

Refilling Wide Markers

Hold the marker at a 45° angle, then drip Various Ink onto the nib, resting the ink nozzle in provided notch. Holds up to 5cc's.

BOOSTER METHOD

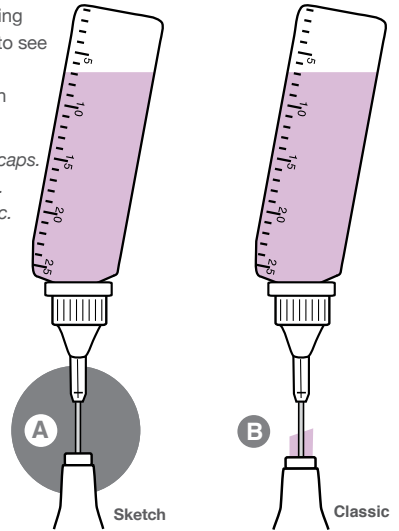

For Sketch & Ciao Markers

1. Remove the Broad nib from the marker.
2. Attach the Booster needle to the top of the Various Ink bottle (A).
3. Add 2-3 cc's of ink.
4. Replace the nib.
5. Clean the Booster with rubbing alcohol.

For Classic Original Markers

1. For Classic markers, carefully insert the Booster along the side of the nib.
2. Add 2-3 cc's of ink using the Various Ink bottle to see the measurement (B).
3. Clean the Booster with rubbing alcohol.

Tips: Always replace the caps. The Booster tool is sharp. Various Ink will stain fabric.

Colorless Blender

Blender - so many uses for just one solution. This clear liquid is the basis of all Copic inks. This alcohol-based solution 'bleaches' inks by pushing color through the back of the paper. This tool is useful in a range of standard and experimental techniques.

The Copic Colorless Blender is commonly used for:

- Adding highlights
- Fading to white
- Coloring transparent objects
- Pre-soaking paper
- Fixing mistakes
- Adding texture & patterns
- Muting colors
- Cleaning up edges

Apply & Texturize

The Copic Airbrush System (ABS) is compatible with the Classic and Sketch marker styles. The ABS allows you to color on a wide variety of surfaces and textures without damaging your nibs.

Visit **Copic 101** for more tips.
iiinc.co/copic/101

Features:

- Lightweight
- Portable
- No mess
- Easy color switching
- Colors a variety of surfaces and textures
- Works with Air Cans or Air Compressor

Using Copic ABS-1N

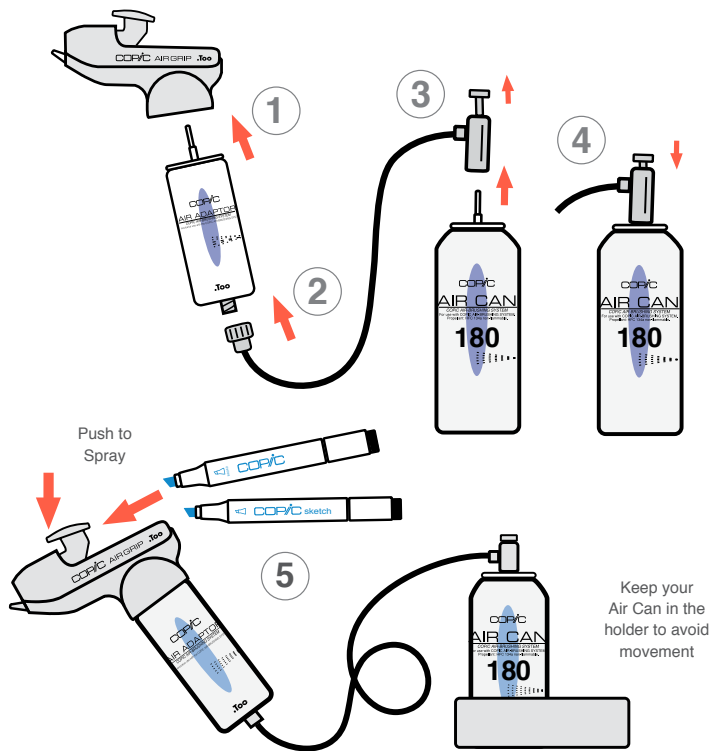

1. Remove the cap from the Air Adaptor and screw the Air Adaptor into the base of the Air Grip.
2. Attach the Air Hose to the base of the Air Adaptor.
3. Unscrew the top valve most of the way out. Attach the Air Can nozzle to the hose.
4. Screw the valve back in to activate the Air Can.

NOTE: When you are done using the Air Can, unscrew the top valve from the air hose before removing the Air Can.

5. Insert your favorite Copic Classic or Copic Sketch marker into the Air Grip as shown, with the broad nib pointing up, then press the trigger to spray.

Copic Airbrush System Warning

- Use in an area with good air circulation.
- Copic markers are alcohol based. Keep away from open flame.
- Do not spray on people or animals.
- Air Cans are under pressure. Do not puncture.

Replacing Nibs

Replacing the Nibs on any Copic Marker

1. Using the Tweezer tool, pull the nib out of the marker; for Brush nibs be sure to grip the nib firmly at the base.
2. Carefully insert the new nib.
3. The ink will wick from the inside out within a few moments.

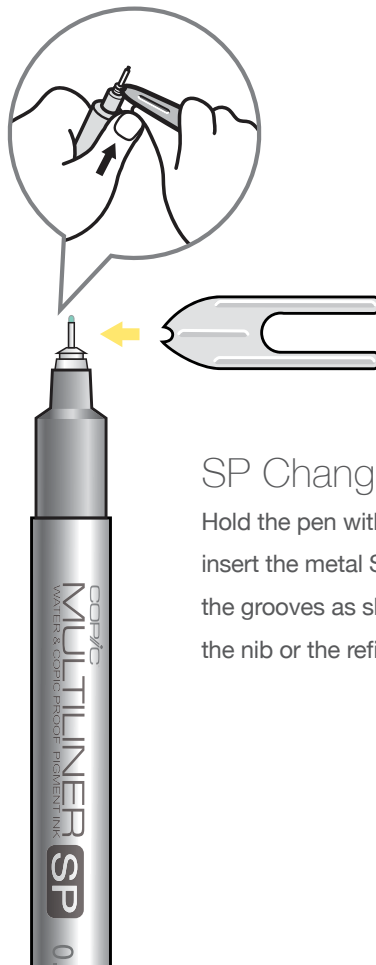

Replacing the Nibs on any Copic Multiliner SP

1. Using the Changer tool, pull the nib straight out.
2. Insert the new nib carefully, making sure to line the wick up correctly.
3. Ink will flow in a few moments.

Tips

- Frequent removal of nibs will cause poor contact with ink.
- Only remove the nib when replacing it, or when replacing the refill cartridge.
- Do not use dry or bent nibs.
- When replacing the refill cartridge, temporarily remove the nib to avoid damaging it.

SP Changer

Hold the pen with one hand and insert the metal SP changer into the grooves as shown for either the nib or the refill cartridge.

Unique & Versatile

Give yourself a full range of line widths with Gasenfude (gas-en-fu-day), Copic's high-quality, genuine nylon brush pen. The long, flexible bristle nib allows for creating a dry-brush effect while the super fine point allows for detailed work. Fill in large areas quickly but still move with precision without having to switch to a different pen. These features make this the ideal pen for hand lettering, calligraphy, comic art, doodling, or traditional brush art application.

Visit **Copic 101** for more tips.
iiinc.co/copic/101

FEATURES

- Archival
- 9 mm long bristles
- 3.1 mm diameter at brush base
- Water based, black pigment ink
- Sturdy, genuine nylon bristles
- Superfine point for detail work
- Long, flexible bristles for dry-brush effects
- Copic compatible ink (will not bleed with Copic markers)

Paper

For over 20 years, Copic has offered a line of papers designed specifically for our Copic markers. These papers allow you to create smooth blends and clean lines that will not bleed.

Alcohol Marker Pads

Thin, bleed resistant paper perfect for tracing, layouts, and renderings. 70 g weight, 50 sheets.

Sizes
 A4 #ALCMRKA4
 A3 #ALCMRKA3

Color Swatchbook

This checkbook sized pocket reference helps keep track of your growing marker collection. This book is also a useful guide for selecting colors during projects.

#CSBOOK

Blending Card from X-Press It

This is our most popular paper. Acid free and archival, making it perfect for illustration, stamping, and card making. The heavy cover weight allows for intense surface blending and heavy ink saturation.

Sizes
 92 lb weight, 8.5" x 11" #XPBC250LTR
 125 sheets
 92 lb weight, 8.5" x 11" #XPBC25
 25 sheets

Illustration Paper

Thick, smooth surfaced paper good for pen and marker illustration. Natural White is thicker and has higher color quality. Pure White is thinner, more transparent, and won't bleed.

Sizes
Pure White
 A4: 65 g weight, 30 sheets #PWA4
 B4: 65 g weight, 30 sheets #PWB4
Natural White
 A4: 130 g weight, 30 sheets #NWA4
 B4: 130 g weight, 30 sheets #NWB4

Sketchbooks

This thick, bleed resistant paper is great for mixed media, pencil, ink, watercolor, and marker coloring. Spiral bound. 70 lb weight, 50 sheets.

Sizes
 5"x7" #SKBK5X7
 5"x12" #SKBK5X12
 7"x10" #SKBK7X10
 9"x12" #SKBK9X12
 11"x14" #SKBK11X14
 Writable Cover Sketchbooks
 5"x7" #SKBKW5X7
 9"x12" #SKBKW9X12

PM Pads

These pads are specially developed for drawings and marker renderings. They have an optimal surface texture, weight, and transparency so color does not bleed or seep through the paper. 50 sheets

Sizes
 PM Pad B5 #PMPADB5
 6.93" x 9.84"
 PM Pad B4 #PMPADB4
 9.84" x 13.9"
 PM Pad A4 #PMPADA4
 8.27" x 11.69"
 PM Pad A3 #PMPADA3
 11.69" x 16.54"
 PM Pad A2 #PMPADA2
 16.54" x 23.39"

Stamping Illustration Paper

Smooth surfaced, slightly off-white paper ideal for layering with cardstock. This paper is excellent for stamping and papercrafting projects.

Sizes
 A4: 130 g weight, 30 sheets #SIPA4
 B4: 130 g weight, 30 sheets #SIPB4

Art Paper Pack

The same paper used in our popular sketch books now available in a loose format. Great for copying and printing line art.

Size
 70 lb. weight, 8.5" x 11" #BRPPACK
 25 sheets

Store & Organize

Our new Marker case fits all 358 Sketch markers with room to spare! Perfect for traveling, or if you just want to keep your whole collection in one place. Available in four colors red, gray, blue, and purple.
Markers sold separate.

Visit Copic for more information about these products.

atyou Spica[★] (Spek-ah)

These water-based, pigmented glitter pens come in 24 shimmering colors! They're perfect for papercrafting, mixed media, scrapbooking, journaling, or taking class notes! atyou Spica's unique tip writes on a variety of surfaces without clogging, and the pen will write for over 360 yards.

	Red	#GLRED
	Lipstick	#GLLIP
	Pink	#GLPNK
	Blossom	#GLBLO
	Peach	#GLPEA
	Clear	#GLCLR
	Orange	#GLORA
	Lemon	#GLLEM
	Gold	#GLGOL
	Buttermilk	#GLBUT
	Lilac	#GLLIL
	Melon	#GLMEL
	Olive	#GLOLV
	Mint	#GLMIN
	Silver	#GLSIL
	Sky Blue	#GLSKY
	Turquoise	#GLTUR
	Baby Blue	#GLBAB
	Pitch Black	#GLPB
	Lavender	#GLLAV
	Chocolate	#GLCHO
	Garnet	#GLGAR
	Sand	#GLSAN
	Black	#GLBLK

Micro glass flakes give the atyou Spica pens their unique glitter effect—flakes are more reflective than other additives, such as glass beads. The pigment is transparent, so it can be used over other inks.

Shimmer & Shine

TIP

Once opened, atyou Spica pens should be stored horizontally to keep the flakes of glass evenly distributed throughout the ink.

Visit atyou Spica 101 for more tips.

Design & Apply

Add a unique design or color accent to any article of clothing, wood, fabric, or fiber art with Hot Ribbon! Hot Ribbon is a laser cut strip of polyester that irons on to any porous surface without sewing or the mess of glue. It comes in 22 colors, plus gold and silver metallic; you can even color the white Hot Ribbon with your Copic markers and expand your palette even further! Hot Ribbon is also machine washable.

Visit **Hot Ribbon 101** for more tips.

Applique with Hot Ribbon

Adding colorful accents and decorative motifs on a wide variety of surfaces is easy with Hot Ribbon. Follow these basic guidelines for bonding Hot Ribbon directly to fabric, paper, leather, and wood.

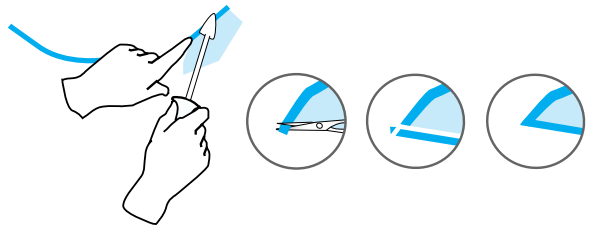

Step 1: Preparation

Set the Mini Iron to medium and place it in a ceramic mug for safety and convenience. Allow approximately 5 minutes for the Mini Iron to heat up. Remember that the shaft of the Mini Iron gets hot as well, so be careful how you hold it. Set a full-sized iron to medium high in preparation for final bonding. Prepare a padded work surface, like an ironing board or folded towel. Find some small, sharp scissors and keep them nearby.

Step 2 | Create Your Design

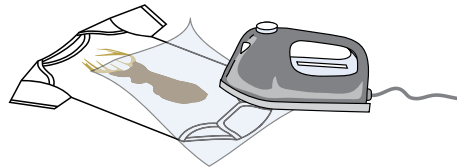

Identify your starting point and consider how to lay out the ribbon. Keep in mind how the ribbon will stack as you add layers; you may want to lay down the ribbon on the edge of your design last to achieve a cleaner, finished look. Use the Mini Iron to tack down one end of the ribbon at your starting point. Iron along the ribbon as you guide it with your fingers; let it flow naturally around curves and avoid pulling on the ribbon. Trim off any excess pieces of Hot Ribbon from your design. Rotate your work and change positions as necessary to make nice, accurate cuts. At corners, ends, or sharp curves, cut the ribbon at an angle that matches the shape of your design. Cut a corresponding angle in the next piece of ribbon before you lay it down. You should allow a small overlap between pieces of ribbon, but try to avoid building up too many layers. If you make a mistake, immediately pull up the ribbon. If necessary, reheat the ribbon to release the adhesive (you may not be able to reuse that piece of ribbon).

Hint: Use steel wool to clean the adhesive residue off the Mini Iron after applying Hot Ribbon.

Step 3: Make It Permanent

Cover the completed design with a non-stick pressing sheet. With a full-sized iron set to medium hot, press down in one spot for 30 - 40 seconds. Repeat this process until you have permanently bonded your entire piece.

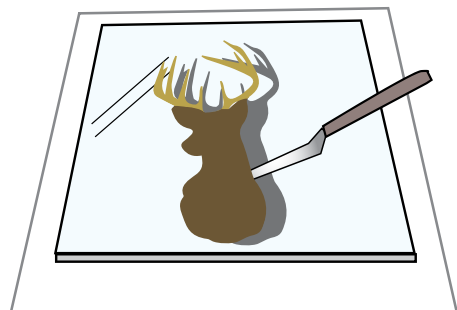

Tempered Glass Transfer Method*

For more complex projects, you may want to build your design on a pane of tempered glass and transfer it to your final work as one piece. Draw out your design on a piece of paper and place a pane of tempered glass over it. Follow the same steps as described in the Direct Method, tracing your design with Hot Ribbon while tacking it to the glass with the mini iron. Once complete, use an artist's palette knife to lift your design off the pane of glass. Place the design on your final piece and make it permanent with the full-sized iron as described in the Direct Method directions.

Tips: Save small scraps of Hot Ribbon for delicate pieces. You can also slice the ribbon down the middle for finer lines, and it won't fray!

*Make sure you are using tempered glass so it won't shatter or be damaged by heat!

Did You Know

Copic is both the brand name and the name of the original style of marker; this marker is considered the Copic Classic. The Classic marker was the first style created by Too Corporation in Japan.
